ABOUT

CONTAINER HUB

Container hub is a Dubai based solution provider for all your container related requirements. The company constantly strive to provide all essential container types to its clients and also extends its services to other aspects related to containers. It takes care of different aspects like container trading, container storage, container conversions, container washing, repair etc. to facilitate the transport process. The company is one of the leading traders of container varieties and is dedicatedly working in fulfilling all requirements related to containers.

Our Vision

Container hub is focused to provide excellent solutions to its clients regarding the various needs related to container types. It aims towards becoming the single stop solution for the container requirements and services in UAE. It strives towards bringing in customer satisfaction and delights at each step of container transport.

Our Mission

To be the most trusted name in the industry and become the most sought-after company in the shipping related aspects, worldwide. It also set goals to bring in the most innovative container designs and services to remain as the leading shipping solution provider across the world.

Our Core values

Trusted Business, Customer Delights, Innovative and sophisticated technologies, Reliable and skilled professionals.

PRODUCT AND SERVICES

Sales and Purchases

Container hub undertakes the sales and purchase of various types of container varieties. Be it of different shape and size, you can buy and sell with container hub any kind of containers.

Storage

It is often hard to store the containers as it requires a large amount of space. We help you go through the storage aspects effortlessly by keeping them intact in our yards and help you timely dispatch them to the destinations.

Container Repairs

Container hub is always at your service to ensure you have perfectly conditioned containers. We help you debug all the flaws with your containers and turn out them as fresh and new. Whether it a hole or a major electric mal functioning of refrigerated containers, we help you solve the issue in no time.

Folding Containers

Container hub brings in all new foldable containers to help you save spaces while transporting the containers back from the destinations. They occupy very less space and can be easily transported back.

Container conversions

Container hub helps you redesign the containers to match your requirements. You can bring in a mobile office, private resting space, cabins or electric room from the containers you have. We help you re-design them affordably.

Container Washing

After a thorough inspection, we help you to remove all the debris and dirt out of your containers and make them flawless. We use latest technologies to wash the containers and give them a perfectly new look and feel.

Interterminal transport

Trade between locations have increased the demand of transportation requirement of goods across countries and areas. We undertake the interterminal transport between areas and execute them in the most efficient manner.
